North American Alliance of Business Brokers is a business brokerage services firm that has been providing business broker careers and services since 2001. The North American Alliance of Business Brokers (NAABB) offers a protected turnkey business brokerage territory for sale in the USA and Canada that provides advanced training, support and leads development. NAABB provides industry certification (NAABB Certified Broker) as well as exclusive licensing to Envoyz, the industry's first and only app and social media platform connecting business sellers with business buyers. All NAABB Certified Brokers have a social media, digital media and sales manager built into their territory.

Beware of imitations. There are many less than ethical people trying to copy our business brokerage opportunity model. Our processes have been copied often since 2001. And while imitation is the best form of flattery, we know these others and the shady people they are.

Currently we have NAABB Certified Brokers covering 32 USA states with 12 available Canadian territories through our newly formed Canadian division.

Business Broker Industry

A business broker is hired by a business owner to sell his or her business in a confidential manner to qualified business buyers. The confidential process is the #1 reason business owners need a business broker because a public sale would destroy the business.

- Employees would look for another job
- Customers would look for alternatives
- Competition would use it as a competitive advantage

These are just a few of many reasons a confidential sale is necessary. In addition, this is not a real estate career because business brokers sell the assets and goodwill not the property. Business brokers are much more involved with their clients than real estate professionals are with their clients, so a business broker's commission is generally 10x that of a real estate broker / agent. The average NAABB commission is \$52,000 on the sale of quality businesses.

Future of the North American Alliance of Business Brokers

The North American Alliance of Business Brokers has been and will continue to be the business brokering industry's pioneer by leading the way into the future. In the summer of 2018 we will be launching the industry's first and only app / social media platform in Envoyz and in the fall of 2018 we will be introducing the industry's first service flipping distressed businesses.

NAABB is currently working on achieving our goal of 100% USA coverage but that is just the beginning. The Canadian market is beginning to take shape and the initial planning is in place to expand into the U.K., Australia / New Zealand and South Africa. NAABB will truly become a global enterprise without ever losing sight of the strong NAABB Brokers that made it happen.

Mission Statement

The business brokering industry in general has a negative reputation that is deserved because of the unethical criminals that get into it trying to make a quick buck. NAABB recognizes this negative stigma and has a clear set mission to clean up the industry one territory at a time.

NAABB Mantra

We do not list businesses rather we represent them!

Negative comments posted online against CEO Scott Radin.

When you have been around as long as Scott has (2001), there will come times when people don't get their way and come after him and his companies. For instance, from 2009 – 2011, Scott was the victim of a [vicious online extortion attempts](#) by one person on ripoffreport.com using many aliases trying to destroy his reputation.

Since then periodic complaints have been spread from rogue brokers whom NAABB did not renew for lack of activity to prospects with whom NAABB declined a territory who blasted Scott for being unprofessional to them.

NAABB Certified Broker status is a privilege rather than entitlement.

Scott accepts that others will challenge him but most people see right through these attacks. Especially when they see Scott's [A+ BBB rating](#).

Legal Structure

The North American Alliance of Business Brokers is an LLC.

Business Broker Industry

There is no other business brokerage career opportunity that comes remotely close to the ongoing services that NAABB offers. A new NAABB Certified Broker can easily exceed \$300,000 per year by meeting simple goals and following our processes. And there is unlimited potential to increase yearly income from there. Business sellers pay a premium to be represented by a highly trained NAABB professional who will sell the business seller's business in a confidential manner to qualified business buyers.

Business Broker Competition

There is no close competition to a NAABB Certified Broker. The main stream business broker operates like a real estate clearinghouse taking as many businesses as they can with hope a few of them will sell. A NAABB Certified Broker is selective with whom they represent and only represent businesses they feel strongly that they can sell. The NAABB way also creates a huge referral pipeline of business owners not happy with the competition's business model.

Business Broker Regulations

Proper real estate licensing is required in CA / FL / MN / ON / WI even though real estate is not part of the sale. NAABB can assist you to hang your sales agent license with a real estate broker. All other states and provinces do not have specific licensing regulations contrary to reports on the Internet by franchises, networks and organizations. NAABB Certified Brokers do not sell real estate in any way, shape or form including transfers of a lease.

It is recommended (not required) that you get a \$20,000 surety bond and file it with the state / province. It creates a marketing advantage over the competition.

Three Day Training

The brokerage territory for sale includes comprehensive three-day training with the corporate partners Scott Radin and Kathy Schmeltzer. The training is done in your home territory in a hotel suite near you. Unanimous feedback from current NAABB Certified Brokers indicates that a comfortable suite is far better than an uncomfortable boardroom.
